Belate Relax

Articulated upholstered armchair with ergonomic design and high backrest.

- Pine wood structure and laminated board.
- Rounded edges for pleasant touch feeling.
- Upholstered wide and plain armrest that improve user comfort and avoid undesired pressure points.
- Relax manual mechanism with two positions.
- Wooden legs with sliders. These pieces allow the armchair mobility without structure damages.

· Ergonomic designed backrest, with built-in wings.

- Seat with elastic suspension N.E.A. and backrest with 80mm webbings.
- High quality foams with densities 30 and 25 kg/m³ for seat and backrest.
- High quality vinyl fabrics for upholstered models that allows an easy cleaning and sanitization of the product.

* Injected seat (optional).

* Continued seat design (optional).

* Free Wall (optional).
